**MEMORANDUM**  
(DRAFT February 26, 2025)

To: S-K-F CSD Board of Directors/PAC  
From: Veronica Cazares, General Manager  
Date Memo Prepared: February 21, 2025

**SUBJECT:**  
First Presentation of the Draft FY 2025-26 Budget

**RECOMMENDATION**  
That the Board review the Draft Budget for FY2025-26 and Provide Direction to Staff.

**EXECUTIVE SUMMARY**  
Enclosed is the draft budget for fiscal year (FY) 2025-26, version February 24, 2025. The budget proposes to increase the rates consistent with the last rate study approved by the Board of Directors on May 29, 2024. This will be the 2<sup>nd</sup> year rate increase under that study.

The rates will be increased from \$583.14 to \$637.72 per year for Selma, from \$543.14 to \$595.72 per year for Kingsburg and from \$557.14 to \$608.72 per year for Fowler for each equivalent single-family residence (ESFR). The industrial rates will also increase for flow, BOD, SS parameters. The sewer rate increases are necessary due to increased costs of repair, refurbishment & replacement of facilities & equipment; services & supplies; salaries & benefits; labor costs; and a reduction in usage of the plant by industrial dischargers. The per year increases are shown below.

ESFR Annual Unit Cost Breakdown is as follows:

Operation and Maintenance Service Charge	\$433.13 per year
District Refurbishment and Replacement	<u>\$106.59 per year</u>
Sub-Total	\$539.72 per year
Selma Refurbishment and Replacement	\$98.00 per year
Kingsburg Refurbishment and Replacement	\$56.00 per year
Fowler Refurbishment and Replacement	\$69.00 per year
Selma Total Annual Sewer Service Charge	\$637.72 per year
Kingsburg Total Annual Sewer Service Charge	\$595.72 per year
Fowler Total Annual Sewer Service Charge	\$608.72 per year

All users pay the same rates per gallon of wastewater, per pound of suspended solids (SS) and per pound of biochemical oxygen demand (BOD), whether the users are industrial, commercial, institutional, multi-residential or single-family residence.

Staff recommends an annual budget transfer for FY 2025-26 of \$4,004,527 from the O&M fund to the R&R fund.

## **REVIEW OF BUDGET PAGES**

In table format, pages 3 to 9 summarize the activities of each of the District functions. Summaries 1 through 6 itemize the beginning balance, revenues, expenditures, transfers and ending balance. All functions are summarized on page 3.

The District pump stations are approximately 53 years old and require refurbishment and expansion. The treatment plant is over 53 years old and requires various refurbishments. Some projects may carry through to subsequent fiscal years.

Cities' Collection Systems Capital R&R reserves are carried in the sub-function accounting for each city for emergency or miscellaneous repairs to the cities' sewer systems and for refurbishment and replacement of aging equipment and facilities.

The cash reserve in the O&M function ends the year at \$4,706,375, which is within the O&M reserve policy of 50% of annual O&M expenses at the end of the year.

In this budget the District is proposing to add a Sewer System Maintenance Technician I (SSMT) which will bring the staffing level to 33 full-time employees. The SSMT's primary work duties are to operate and maintain the collection system, appurtenances, and respond to emergency calls. The Organizational Chart on page 10 shows the lines of responsibility and reporting.

Services and Supplies Expenditures on page 15 shows divisional detail for services & supplies expenditures. The Pretreatment Program Cost Allocation on page 16 shows resources allocated to the federal pretreatment program.

The District's Chart of Accounts on pages 19 to 24 shows in detail the types of expenditures that are budgeted under each account number.

Table 10 of the current Capital Improvement Program is on page 26 and shows the repair and maintenance project schedule from the O&M fund.

The proposed increase in sewer rates for the District's Capital Refurbishment & Replacement fund and General Operation & Maintenance fund are necessary due to increased costs of repair; refurbishment and replacement of aging equipment and facilities; services and supplies; salaries and benefits; labor costs; and a reduction in usage of the plant by industrial dischargers.

The proposed increases for the Cities' R&R sewer rates are necessary due to increased cost of repair, refurbishment and replacement of aging equipment and facilities in the collection system, and are substantiated in the Capital Improvement Program, Sewer System Management Plan assessments and District's Collection System Master Plan update.

Must be over \$8,000.

DRAFT

**SELMA - KINGSBURG - FOWLER COUNTY SANITATION DISTRICT  
FUND SOURCES AND USES (2025-26)**

<b>FUND</b>	<b>SOURCES</b>	<b>USES</b>
<u>OPERATIONS &amp; MAINTENANCE</u>	O&M portion of service charges. Same rates per pound B.O.D., pound S.S. and gallon wastewater for all users. Most residential and commercial billed on tax roll. Industrial billed monthly. Some residential and commercial billed quarterly. Interest earnings. Rent. Septic hauler fees. Plan check fees.	Any District activity, including operation, maintenance or repair expenses for wastewater collection, treatment and disposal.
<u>DISTRICT CAPITAL EXPANSION</u>	District capacity charges and annexation fees. Interest earnings.	Expansion or capacity increase of capital facilities, fixed assets or equipment of the treatment plant or interceptor systems.
<u>DISTRICT CAPITAL REFURBISHMENT &amp; REPLACEMENT</u>	Fixed capital charge portion of service charges. Rate based on peak demand. Generating a partial funding of capital recovery. Interest earnings. Same billing procedures as O&M portion.	Refurbishment or replacement of capital facilities, fixed assets or equipment of the treatment plant or interceptor systems.
<u>CITY COLLECTION SYSTEM CAPITAL R&amp;R</u>	Portion of service charges separately identified for use for cities' collection systems. Interest earnings.. Billed on the County tax roll along with the O&M and fixed capital charge portions of the service charges.	District fulfillment of obligations under the Service Agreements with the three cities for refurbishment or replacement of capital facilities, fixed assets or equipment in the cities' collection systems and pump stations. Expenditures are determined by District, to the extent of cash accrued for use in each city.
<u>EACH CITY'S INDIVIDUAL MUNICIPAL ACCOUNTING SYSTEM</u>	Cities' capacity charges. Rates set by each city. Collected at each city hall. Rates may differ for each city.	Expansion or capacity increase of the cities' collection systems and pump stations. Technical specifications determined by District.
