

No Wipes in the Pipes

This is what happens when you flush “Disposable” or “Flushable” cleaning products. Don’t be misled by the confusing and false labels.

It’s very simple.

Flush **only** the 3 **P**s:
Poop, **P**ee and toilet

It's a toilet, not a trash can!

**PLEASE don't flush "Flushable"
or "Disposable" products, even
"Biodegradable" ones.**

Flushing personal hygiene, wipes and household cleaning products can waste water, clog sewers, cause overflows, damage equipment, and cost millions in public funds to repair and replace worn parts and equipment.

**Throw them in the trash,
NOT THE TOILET!**

SKF County Sanitation District

Committed to our communities.

*Protecting tomorrow's water resources by
treating today's wastewater through
innovation and superior level of service.*
